

GÉRAUD BADÉLÉ OGOUNCHI

Master's Student in Data Science | Seeking Internship

PERSONAL DATA

NATIONALITY:	Beninese	DATE OF BIRTH:	13 October 2000
PLACE OF BIRTH:	Ifangni, Benin	CIVIL STATUS:	Single
ADDRESS:	92WR+VRX, M'bour, Senegal	PHONE:	+229 0167138137
EMAIL:	ogouchi.g.badele@aims-senegal.org		
LINKEDIN:	linkedin.com/in/gerogouchi2000	GITHUB:	github.com/Ogoun09gerbad

CURRENT POSITION

Current Since October 2025, I am a Master's student in Data Science at AIMS Senegal (AFRICAN INSTITUTE FOR MATHEMATICAL SCIENCES), under the supervision of my academic advisors. I am working on statistical modeling and machine learning methods applied to real-world problems.

OBJECTIVE

Goal With a solid theoretical foundation in mathematical analysis, probability, and statistics, combined with hands-on experience in classification modeling, fraud detection, and data mining, I aim to contribute to **impactful and innovative projects** that bridge rigorous mathematics with modern computational methods.

Motivated by scientific curiosity and a strong commitment to excellence, I am eager to collaborate with expert teams, deepen my technical skills, and deliver meaningful contributions to research or applied projects in an international environment.

EDUCATION

2025– Current	Master's in Data Science <i>African Institute for Mathematical Sciences (AIMS) – Senegal</i>
2024– 2025	Master 2 in Fundamental Mathematics and Applications <i>Institute of Mathematics and Physical Sciences (IMSP) – Benin</i> Thesis: Asymptotic Behavior and Self-Similar Profiles of Solutions to the Heat Equation in $\mathbb{R}^N$ ▷ Studied convergence of heat equation solutions in $\mathbb{R}^n$ towards a self-similar Gaussian profile as $t \rightarrow \infty$, establishing an analogue of the Central Limit Theorem. Derived convergence rates of order $t^{-1/2}$, t^{-1} and beyond under finite moment conditions. ▷ ⇒ View Thesis PDF
2024	English Language Training <i>TBCAfrica – USA</i>
2023– 2024	Master 1 in Fundamental Mathematics and Applications <i>Institute of Mathematics and Physical Sciences (IMSP) – Benin</i>

2021– 2022	Bachelor's in Mathematics-Computer Science <i>Faculty of Sciences and Technology of Natitingou – Benin</i>
2018	Scientific Baccalaureate (Series C) <i>General Education College of Application – Benin</i>

PROJECTS

2024	Tax Fraud Detection using Classification with R <i>Professional Project</i> ▸ Designed a fraud detection model from financial and non-financial company data using classification algorithms in R.
2022	Graph Theory and Scheduling <i>Research Project – IMSP</i> ▸ Modeled and solved real-world optimization problems using graph theory and scheduling algorithms.

PROFESSIONAL EXPERIENCE

2024	Research & Statistics Intern – CaSEG <i>Cabinet de Recherche et d'Études Statistiques, Économiques et de Gestion – Togo</i> ▸ Supported economic development stakeholders through research, design, implementation, monitoring and evaluation of projects and programs. ▸ Assisted in the management and analysis activities for SMEs and SMIs.
2022– 2024	Mathematics Teacher <i>Benin</i> ▸ Prepared lesson plans and provided tutoring for Grades 6–11. ▸ Helped students consolidate mathematical concepts from coursework.

EXTRACURRICULAR ACTIVITIES

2024	Artificial Intelligence Club ▸ Built a smart robot car. ▸ Presented at general seminar 2024–2025: <i>Using ML algorithms for data mining – case study of exam data.</i>
